The Marantz NA7004 Network Audio Player delivers the connectivity you need to explore the ever-widening world of internet audio just as it honors the tradition of superlative sound quality that has distinguished Marantz products for over half a century. Whatever your source – smart-phone, iPod, PC or streaming audio program – the NA7004 maximizes musical enjoyment while eliminating user confusion. It's the HiFi web portal you've been waiting for, and another example of how the Marantz tradition of sonic excellence thrives in today's world.

The NA7004 is DLNA 1.5 and Windows 7 compliant for easy audio streaming from hundreds of compatible devices. Explore a myriad of musical styles with internet radio, or check out your favorite artists on-line via the included Pandora, Rhapsody and Napster music services. The NA7004's built-in media player controls thousands of songs from any connected iPod, PC or USB hard disc drive; the options are almost limitless... .

Equipped with Marantz Reference-caliber audio electronics, the NA7004 brings this unprecedented array of digital music to life in your home. The NA7004 merges digital convenience with Marantz' renown audio engineering to deliver one of the most compelling musical experiences available today.

As do other new Marantz components, the NA7004 sets a new standard for audiophile-grade reproduction of your music – regardless of where it came from. It is the embodiment of the flexibility you demand from Marantz.
