SR5009

AV RECEIVER WITH WI-FI & BLUETOOTH

The latest current feedback topology and Marantz's own new HDAMs are central elements of the new seven-channel SR5009. These technologies guarantee both power and detail in your surround sound experience. Bluetooth® and Wi-Fi are built-in so you can enjoy your digital files wherever they are stored. In addition, it provides networking DLNA 1.5 facilities for DSD & AIFF and Gapless HD audio streaming, Internet radio, SiriusXM™, Pandora®, Spotify Connect®, and AirPlay. It includes decoders for standard audio as well as for Dolby TrueHD and DTS-HD Master Audio. The SR5009 comes with no less than eight HDMI inputs one of which is on the front, and two outputs – making it immediately ready for 3D and even 4k 60Hz UHD resolution supporting 4:4:4 Pure Color. It easily handles the most demanding of scenes in action films, as well as offering excellent-quality music playback - thanks to the latest Marantz audio technologies and 100W (8ohms, 20 Hz - 20K Hz, THD 0.08%) from the seven amplifiers. Everything sounds clear, detailed, and alive with this set. As with many of this year's models, the SR5009 includes a smart ECO mode. To finish off, the SR5009 comes with a whole range of convenience features such as: Setup Assistant, auto calibration with Audyssey MultiEQ XT and Dynamic Volume Control; four Smart Select buttons, Multi-Room with multi-source flexibility; and "video-off" mode to ensure that you enjoy your music and movies in true dynamic Marantz style. It also has the specially developed Marantz Remote App for smartphone and tablet. All of which makes the SR5009 a true combination of style, power and ease.
